

MARICELLA NAYERI

Master Reiki Teacher

LMT

Owner, MAdre Wellness Collective

Maricella Nayeri is a Milwaukee-native who through her personal self-healing journey, has been called to share her practices and lead others on their journey to remembrance. She creates containers of sacred space that allow individuals the expansiveness needed to heal through ritual, energy work and ceremony.

Her first initiation began on a trip to Budapest in 2014 when she received Reiki from a nun in an open market. Since then, she has become initiated as a Reiki Master Teacher (Cathy Podd, US), Priestess of the Melchizedek (Dot Winter, England) and Pampamesayok of the Q'ero lineage (Don Augustin, Peru). In December 2022, she completed the requirements to become a licensed massage therapist in the state of WI, adding yet another healing modality to her offerings.

Her life is deeply influenced by ancient ancestral medicine and her practice includes a deep reverence for Mother Earth and all of her blessings.

She is a life-student of the technologies that our ancestors used for their natural healing and well-being including plant medicine, sound healing and Curanderismo, passed down from her grandmother in her physical and spirit form.

Her experiences have enriched, challenged and added depth on her journey to wholeness. It is her hope that through the sharing of her experiences and knowledge, it will help others realize their own personal paths to wholeness.

In the Fall of 2021, Maricella opened the doors to MADre Wellness Collective located in Bay View where she has called home for over 20 years. MADre was created as a seedling from the work that she and her sister, Mariyam Nayeri, created with Botanica Galactica in Walker's Point.

MADre serves as a space for individuals to gather, learn and heal in community. Our focus is to support healers of color as they step into their natural gifts of leadership.

Our intentions:

- Remove barriers to wellness as they exist within marginalized communities
- Honor one's unique healing journey
- Empower the teacher and student within
